- Oculus Keratograph Anterior Eye & Dry Eye Assessment
painless and safe imaging and analysis of the tear film and oil gland health
- TearLab Osmolarity Assessment
quick and safe assessment of the level of salts in the tear film

Diagnosis and Management of Dry Eyes and Related Conditions

Information for your visit with us:

We will work with you to find out the cause of your symptoms and the best way to alleviate them. We look forward to meeting you, and are passionate about helping you.

To best help you, we would like as much information about your symptoms, your treatment history and your general health as possible.

Please bring:

- A list of any prescribed, natural and over the counter medications and supplements.
- Current eyedrops, gels and ointments you are using or have used.
- Name and contact details for your GP, specialists and other health professionals.

Payment is expected on the day, and bring your Medicare card to assist you to receive rebates. Please don't wear eye makeup or contact lenses to your appointment. Your vision will not be affected by your visit, so it is safe to drive.

Alleve Eye Clinic
